

The following books are Reading Counts books relating to science. For an optional assignment each quarter, you can elect to read one of these books and then take the Reading Counts book quiz. Your score on the quiz will be your score on the optional assignment, converted to 20 points. You have one attempt at the quiz. Check Portal/Focus or our binder log for due dates. You can see Mrs. Titus in the library to help you find any of the titles below, or see her for more science suggestions. **Circle the one you have chosen to check out:**

A plague of frogs : unraveling an environmental mystery (Biology/Environmental Sci)	597.8 Sou
Shaking the foundation : Charles Darwin and the theory of evolution (Biology)	576.8 Joh
Rats : observations on the history and habitat of the city's most unwanted inhabitants (Biology)	599.35
Working with animals (Biology/Zoology)	591 Lee
Flu : the story of the great influenza pandemic of 1918 and the search for the virus that caused it	614.5 Kol
Night comes to the Cretaceous : comets, craters, controversy, & the last days of the dinosaurs	576.8 Pow
Freaks of the storm : from flying cows to stealing thunder : the world's strangest true weather stories	551.5 Cer
The disappearing spoon : and other true tales of madness, love, and the history of the world from the periodic table of the elements (Chemistry)	546 Kea
Napoleon's buttons : 17 molecules that changed history (Chemistry)	540 LeC
A brief history of time (Physics)	523.1 Haw
Longitude : the true story of a lone genius who solved the greatest scientific problem of his time	526.6209 Sob
Experimenting with time (Physics)	529 Gar

When you have taken the quiz and have returned the library book, hand this sheet to Mrs. Titus. She will verify the quiz you took on the title you circled and fill out the score. Mrs. Titus will keep this sheet and put it in your teacher's mailbox for your optional assignment. She will also email me verification.
